Wilco Gopher Getter Type 2 Bait is SUPERIOR. Here's Why..

Wilco..

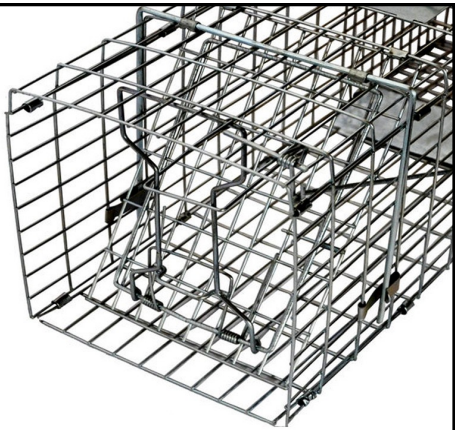

- .. uses an attractant which draws the gopher to the bait.
- .. uses the highest quality Diphacinone.
- .. uses a high grade of oil to adhere the Diphacinone to the milo grain, eliminating the amount of Diphacinone residue to drift off of the bait when pouring into application equipment.
- .. Gopher Getter Type 2 Bait, when tested, has proven to be effective with high palatability. It is recognized as the leader in sales in the Western United States.
- .. uses milo grain, proven to be a "first choice" grain among gophers in laboratory tests.
- .. uses milo grain because it produces a long "germination period," staying active in a burrow for up to 27 days.
- .. uses milo grain because it works well in most hand machines or probes.
- .. is available for homeowner use in 1 lb., 5 lb., 25 lb., and 50 lb.
(NO PERMIT AND/OR LICENSE NEEDED)
- .. packages the 1 lb. and 5 lb. containers with a child resistance closure.
The 25 lb. and 50 lb. baits are packaged in high quality poly bags.

WILCO GOPHER GETTER TYPE 2 BAIT is formulated for fast, economical control of pocket gophers.

BE SURE TO READ AND FOLLOW DIRECTIONS ON LABEL.
REGISTERED IN AZ, CA, NE, NV, OK, OR, SD, TX, UT, WA, WY

- EASY

ANYONE CAN GET RESULTS EASY TO SET- EASY TO EMPTY- NO MESS
- SAFE

NO POISONS OR GASSES TO HARM CHILDREN OR PETS
NO BARBS - COMPLETELY SAFE TO HANDLE

GUARANTEED RESULTS

FULL REFUND WILL BE MADE IF YOUR DOC WOODY’S GOPHER TRAP FAILS TO CATCH A GOPHER WITHIN 30 DAYS OF PURCHASE. SEND TRAP WITH YOUR SALES SLIP TO:
DOC WOODY’S- 561 STATE HIGHWAY 33
NEWMAN, CA 95360-9614

- EXTRA HINTS:**
1. To avoid accidental tripping while setting trap, move trigger wire well up on the hold-down bar. After trap is in place, move trigger wire as close to the end of the hold-down bar as possible.
 2. Fresh mounds are darker in color. If there are many mounds present, kick them flat and observe for new activity.
 3. To avoid excess damage to lawns, dig out a rectangular piece of lawn slightly larger than trap and save. After gopher is caught, sod can be replaced.
 4. Always make sure joints of trap are tight, **AIR MUST ENTER TRAP-LIGHT MUST NOT.**

THE #1 GOPHER TRAP

NOTE: When using lures with live traps, be sure to check with your local wildlife office for pertinent laws and permits.

GROUND SQUIRREL BAIT BY WILCO

Highly palatable to ground squirrels, this bait is pelletized to emulate their natural food source and encourage them to eat the bait, not to store it. It contains the anticoagulant Diphacinone (.005%) and is a multiple-feed solution requiring the pocket gopher to consume 3-4 days of continuous feeding. This homeowner bait is available in 4 lbs. and 20 lbs. No permit and/or license is required.

Part # 31004- 4 lbs. , Part # 31020- 20 lbs.

Related Product:

Ground Squirrel Bait by Wilco AG (restricted use)

Available in 20 lbs. and 40 lbs.

GROUND SQUIRREL TRAP BY WILCO

Part # 70203

An alternative to poison baits is a Ground Squirrel trap. This product is a multi-catch trap with a unique design that allows up to a dozen squirrels to be caught at one time. No bait or poisons necessary. Trap is reusable.

GROUND SQUIRREL BAIT STATION

Molded of heavy-duty dark green plastic that withstands any type of abuse. Its design is ideal for ground squirrels while discouraging non- target animals. Bait remains fresh and also includes a Child-Resistant Cap.

Part # 39000

WILCO ZINC AG BAIT (restricted-use)
